

The shop

The shop of the Musée de la Nacre et de la Tabletterie offers many jewels and objects made with materials formerly used by tablet makers. You will be dazzled by the reflections of mother-of-pearl, the strength of ebony wood, the transparency of the horn and the vivid colors of the tinted corozo.

Discover the collections of French designers and those designed within the museum itself by our workshops. Jewelry, domino games, tableware, textiles, decoration... You will inevitably find a gift idea for your loved ones or for yourself!

The dominoes on sale at the museum shop are made on site by the museum's production workshops. You can discover them in our icon 2021 domino catalog.
